

INFLATABLE PLAYZONE

If you are looking for something dedicated to the younger guests at your event the Children's Play Zone is the perfect activity. This bright interactive activity is perfect for entertaining younger guests aged 4 and under. It features four key play elements designed to keep little ones entertained.

FEATURES

- **Ball Pond** – Everyone loves a ball pond! The Play Zones ball pond is full of bright coloured balls ready for little ones to explore and enjoy!
- **Mini Slide** – Perfect for little explorers! This dedicated toddler slide is perfect for the younger children. Big enough to thrill but small enough to conquer!
- **Bouncing Area** – Bounce Bounce Bounce!! This small bouncy area is just the right size for toddlers and because this activity is dedicated to 4's and under there is no risk of big kids bumping the little ones.
- **Floating Sensory Balls** – This sensory air game will leave toddlers amazed. With four air cones whooshing air from them the little ones can experience the sensation of the air flowing. They can also float the soft play balls in the air and watch them dancing around before their eyes before they catch them again. This sensory game really does leave children mesmerized.
